If you saw Biden's speech last night he said quite a bit about burn pits and pushing for legislation to help our veterans who have suffered and died from these toxic fumes

The pending legislation is HR 2372 and S 952 and both linger in committee since last summer.

At the next EC meeting please discuss again ramping up pressure on Commander Wilson to use their much larger platform to inform Ohio's 95K Legionnaires of the specifics of this legislation and contacting their reps for cosponsorships. Only 3 of Ohio's 16 have done so.

This is coming from my old email address but I wanted to include all the below info. I will not be able to view any replies to this so please respond to my email address of [kennethkarpy@gmail.com](mailto:kennethkarpy@gmail.com). Thanks

Ken
